

# Raking leaves?

## Leaves don't belong in the street!

Streets are part of our stormwater drainage system. Leaves left along the curb can enter storm drains, increasing the risk of localized flooding and adding pollutants to the receiving streams and rivers. Street sweepers are unable to pick up large volumes of leaves.

Leaves, grass clippings and other yard trimmings should be mulched, composted, placed in trash cans and bags for regular pick-up, or taken to the free compost site.

Your efforts and assistance to keep our drainage system clear are much appreciated!
